

To Whom it May Concern,I am respectfully urging the FCC to reject the NAB's petition 04-160.

XM-Radio's Instant Traffic and Weather is an invaluable service for me and thousands of others in the greater LA area. It is one of the main reasons why I purchased the subscription to XM Radio in the first place. The morning talk radio stations so not do an adequate job of supplying traffic information. For someone who spends copious amounts of time in their vehicle, up to date and constant knowledge of the traffic situation in the area's I will be traveling is imperative. I am able to modify my travel routes much more efficiently with their Instant Traffic and Weather service, saving me significant time and money. Please reject Petition 04-160 and allow XM radio to continue to broadcast this invaluable station.

Sincerely,  
Adam Boettner
